

Here Come The Hobo's

We asked Richard Hay one time how he liked "life on the road" and he said it reminded him of being a "hobo" with a traveling suitcase, never knowing where he was going or where he would sleep that night. As many of you know, Richard spends many weekends out of the year visiting collectors and retailers across the country for our doll signing events. We thought having this collection of hobo dolls would be a great way to honor the passion Richard has for our products, and the love and kindness that he shares when he visits all of the wonderful people in our Precious Moments family. Richard would love to meet you somewhere during his travels this year - please visit www.pmc dolls.com for a schedule of the signing events.
